AI Life Summit funnel: handoff for John

Due: Friday, Nov 6 (evening) · **ClickUp:** Alicia Lyttle > AI Life Summit November - 2026 > Build AI Life Summit Funnel
GHL: sub-account "Alicia Lyttle (Palm Bay, FL)" · **Domain:** aibusinesssummit.com · **Questions:** Yash

The funnel

Free 2-day summit with Alicia Lyttle, plus a $47 VIP upgrade.

`/ailife` Registration → `/ailife-vip` $47 VIP + Summit Notes bump →

`/ailife-vip-confirmed` if they buy | `/ailife-confirmed` if "No thanks"

Side pages: **Testimonial wall** (linked from registration) and **VIP Bonus Downloads** (linked from the VIP thank-you page).

Already done

- GHL code for every page, tested on desktop and mobile: `ghl/` (11 files).
- Images pulled out and named, with upload lists: `assets/*/UPLOAD-LIST.md`.
- Clickable preview of the whole flow: open `preview/1-registration.html`.
- Step-by-step build guide: `GHL-BUILD-CHECKLIST.md`.

Rules

- Leave every `[BRACKET]` as it is. Alicia fills those in.
- Don't edit the code by hand. Tell Yash and he regenerates it.
- Nothing goes live and nothing charges real money until Yash says so.

What you do, in order

1. **Images:** upload everything in `assets/registration`, `assets/vip`, `assets/testimonial-wall` plus the 2 bonus PDFs to Media Storage. Paste each link into its `UPLOAD-LIST.md` and send the lists to Yash. Paste only the final code he sends back.
2. **Products, form, order form:** checklist steps 2 and 3. Send Yash the form ID.
3. **Funnel and pages:** checklist steps 4 to 7b. Turn off "Optimise JavaScript" on every page.
4. **Domain:** checklist step 9.
5. **Test:** checklist step 10 (Stripe test mode), then the Funnel Audit subtask.

Skip: workflows, emails and texts. They aren't part of our task.

Still waiting on (don't let these block you)

Final summit dates (being confirmed; pages say Nov 18 to 19, 1 PM ET) · Zoom link · Summit Notes price · refund policy link · paths for the two side pages.
